- During the 2016 General Obligation Bond referendum, voters were told that up to 2.5 cents of additional property tax would be needed to support the additional GO Bond debt along with other debt issuances the County planned to make over the 10-year view of the 2017-26 Capital Improvement Plan (CIP). After several recent refinancings of existing debt, along with revised future debt costs and slower than expected debt issuance the property tax increase needed to support ongoing debt service resulted in a 1.75 cents property tax increase in FY2017-18.
- For FY2019-20, the portion of the County tax rate dedicated to fund the Capital Financing Plan, which helps support debt service payments stays flat at a revenue neutral 8.61 cents. Due to the 2019 Revaluation process, the County must find, by state law, a new tax rate that brings in an equivalent amount of revenue as the tax rate the previous year. The Board may then apply a tax rate change as part of the budget process. The Approved budget does not include an increase from the new revenue neutral rate.
- North Carolina law limits local government net debt to 8% of assessed value. Based on current valuations, the County could issue \$2.66 billion in debt. At this writing, the county has \$259 million in outstanding general obligation debt. An additional \$192.7 million in Limited Obligation Bond debt and \$70.3 million of installment purchases (short term debt) is not included in this legal limit.
